B.B.A.L.L.B. (Hons.) – Five Year Integrated Course Scheme:

B.B.A.L.L.B. (Hons.) program is a rigorous and enriching five-year integrated course that blends the core principles of management with the foundations and complexities of legal education. Spanning over 10 semesters, the curriculum is strategically designed to meet contemporary academic and industry demands, with each semester comprising 18 weeks of instruction, 90 teaching days, and 36 classes per week, including 30 law-focused ('L') lectures that foster in-depth legal understanding.

The program comprises 36 core Law papers, including 21 compulsory law subjects that build foundational and advanced knowledge in civil, criminal, constitutional, administrative, corporate, and procedural law. Additionally, students benefit from 4 Clinical Papers designed to provide hands-on exposure through moot courts, internships, legal research, and drafting practices, bridging the gap between theory and legal practice.

To cater to diverse legal interests and career aspirations, the program offers 16 Elective Papers, allowing students to choose from a broad range of legal disciplines such as RTI, POSH, E-commerce, AI and Cyber Laws. Moreover, each student must pursue 8 papers from a specialized group (Constitutional Law, Criminal Law, Business Law, or Intellectual Property Law), enabling academic concentration in their field of choice, thereby equipping them with specialized expertise and professional edge.

The academic journey is further enriched by Management papers, including courses in economics, business environment, business ethics, corporate governance, financial accounting, IT, and more—ensuring holistic development and multidisciplinary competence. In addition to academic excellence, the program mandates 20 weeks of internship across different semesters, offering students practical exposure to courts, law firms, corporate legal departments, NGOs, and regulatory bodies—significantly enhancing their professional readiness and real-world legal insight.

Overall, the B.B.A., LL.B. (Hons.) program is a comprehensive, contemporary, and career-focused legal education that not only imparts academic excellence but also emphasizes professional readiness, innovation, and social responsibility in a rapidly evolving legal and business environment.
